Operating Results and Financial Position

(1) Overview

With regard to the pachislot and pachinko industry, the level of pachinko hall operation showed a gradual recovery trend since the state of emergency was lifted, but with the extension of the deadline to remove the machines based on former standards, it is expected to continue to take some time for pachinko hall operators' purchasing power to recover. For pachinko machines, expectations are rising of a recovery in demand, mainly due to the release of popular titles for

machines based on new standards.

Regarding the environment of the Entertainment Contents Business, in the consumer field (used in the previous fiscal year, the digital game software field and the packaged game software field), download sales for PCs and home video game consoles are progressing with the advance of digitalization, while rising demand for games was evident, resulting from the impact of consumption from staying at home to prevent the spread of COVID-19. In addition, the game market is expected to further revitalize and expand on a global scale, with an increased interest in the upcoming launch of new platforms, diversified revenue opportunities from new business models and services, and the development of technologies and infrastructure such as 5G and the Cloud. As for the market for amusement centers and amusement machines, although amusement center operation, which had slumped due to the impact of COVID-19, has entered a recovery trend, the number of visitors is down, and it is expected to take some time for purchasing power to recover.

In the resort industry, demand for both domestic and overseas travel has dropped, resulting in a drastically reduced number of tourists due to the impact of COVID-19 and travel restrictions imposed by each country. A recovery in domestic tourism demand is expected however, with the launch of the national government's "Go to Travel Campaign" in July. Also the enforcement order, etc. pertaining to the "Act on the Establishment of Specified Integrated Resort Areas" have been sequentially enforced from April 2019, including the establishment of the Japan Casino Regulatory Commission in January 2020, and the national government's draft basic policy was announced in October 2020, and the application period for the certification of integrated resort district development plans was revised.

Result of each segment is as follows.

Net sales in each segment here do not include Inter-segment sales between segments.

In addition, as a reportable segment of the Group, The business operated by SEGA SAMMY CREATION INC., which was previously included in "Entertainment Contents", have been changed to "Pachislot and Pachinko Machines", and the segment income has been changed from "operating income" to "ordinary income" from the first quarter of the fiscal year ending March 31, 2021. The comparison and analysis of the second quarter of the fiscal year are prepared based on the modified segment classification. For details of segment information, refer to "3. Changes to business segments etc." of "SEGMENT INFORMATION" on page 10.

« Pachislot and Pachinko Machines »

For pachislot machines, the Group has launched "Pachislot Shin Hokuto Muso", leading to overall sales of 4,885 units (28,360 units for the same period in the previous fiscal year). For pachinko machines, the Group has sold "P Psalms of Planets Eureka Seven HI-EVOLUTION ZERO" etc., leading to overall sales of 11,342 units (66,140 units for the same period in the previous fiscal year).

As a result, net sales in this segment were \(\frac{\pmathbf{\text{410}}}{1000}\), 758 million (a decrease of 75.7% for the same period in the previous fiscal year) and ordinary loss was \(\frac{\pmathbf{\text{412}}}{1000}\), 425 million (ordinary income of \(\frac{\pmathbf{\text{\text{7}}}{7.266}}{1000}\) million for the same period in the previous fiscal year).

« Entertainment Contents »

In the consumer field, for Full Game*, the Group released new titles including "A Total War Saga: TROY", with strong performance of repeat sales, leading to sales of 19,080 thousand copies (12,100 thousand copies for the same period in the previous fiscal year). For free-to-play games (F2P*), "Re:ZERO -Starting Life in Another World- Lost in Memories" and "Project SEKAI COLORFUL STAGE feat. Hatsune Miku", which were launched in September, made a flying start, and both existing titles and new titles performed strongly.

*Consumer field is classified by following 3 business models.

Full Game	Physical sales and download sales of full game for home video game consoles and PCs. (Download content sales are not included.)
F2P	Sales of contents with offering free basic play and microtransaction for smartphones and PCs.
Others	Sales of additional downloadable contents, consignment sales of 3rd party titles, revenue from consignment development, transfer of titles, offering of titles in batches to 1st parties, sales of non-game software products, etc.

In the amusement machine field, sales focused on UFO CATCHER series and prizes. Although operations are recovering at amusement centers, which are the purchasers, charge income and orders were sluggish due to a decrease in the number of visitors.

In the amusement center operations field, although all centers have resumed operation since mid-June and facility utilization rates are recovering, primarily at centers in suburbs and shopping centers, but like-for-like sales at the existing amusement center operations were 50.1% compared with the same period of the previous fiscal year due to persistently low numbers of visitors at centers in urban areas.

In the animated film and toy field, the Group recorded earnings from video production and distribution, and implemented the sale of mainstay toy products. However, the release of "Detective Conan: The Scarlet Bullet" was delayed due to the impact of COVID-19, and distribution revenues declined significantly.

As a result, net sales in this segment were \(\frac{\pman}{97,026}\) million (a decrease of 16.2% for the same period in the previous fiscal year) and ordinary income was \(\frac{\pman}{16,856}\) million (an increase of 31.7% for the same period in the previous fiscal year).

« Resort »

In the resort business, at "Phoenix Seagaia Resort", the number of guests continued to fall sharply due to the impact of COVID-19, leading to 46.4% compared with the same period of the previous fiscal year. The recovery in group and corporate demand is expected to take some time, but personal demand particularly is in a recovery trend, due partly to the effect of the "Go to Travel Campaign". In addition, expenses for participating in the domestic integrated resort incurred.

Overseas, PARADISE SEGASAMMY Co., Ltd. (affiliate accounted for using the equity method) is operating "PARADISE CITY" saw substantial decline from January to June, 2020 such as drop amounts (purchased amount of chips by customers at the table) was 47.3%, and the number of guests was 55.9% compared with the same period in the previous fiscal year, respectively. Also, efforts are being made to enhance the efficiency of facility operation, through measures such as the suspension of operations at some facilities and reductions in staff.

*PARADISE SEGASAMMY Co., Ltd. is posted 3 months delay due to the fiscal year ended in December.

As a result, net sales in this segment were \$2,245 million (a decrease of 59.2% for the same period in the previous fiscal year) and ordinary loss was \$4,662 million (ordinary loss of \$3,137 million for the same period in the previous fiscal year).

(2) Forecast of Consolidated Operating Results

The Company has revised the forecast of consolidated operating results for the fiscal year ending March 31, 2021 which was announced on August 5, 2020. With regard to the details, refer to "Notice of Revision of Operating Results Forecast and Determination of Dividends from Retained Earnings (interim dividends)" announced on November 6, 2020.

(3) Other

(Additional information)

Accounting estimates associated with the spread of COVID-19

The Group implemented amusement center operations etc. to suspend temporarily or to reduce opening hours following the declaration of a state of emergency from the government and business suspension requests from the local governments due to the impact from the spread of COVID-19. In addition, accounting estimates are reflected in accounting treatment based on certain assumptions, which have no significant changes from announced additional information on the flash report in the previous fiscal year ended March 31, 2020, including those used to determine the recoverability of deferred tax assets and those used to determine impairment losses, etc.

However, there are many uncertainties over the impact from the spread of COVID-19, which could affect the Group's financial position and operating results for the fiscal year ending March 31, 2021.

(Changes to the classification method for business segments)

The business operated by SEGA SAMMY CREATION INC., which was included in the Entertainment Contents Business, has been changed to the Pachislot and Pachinko Machines Business from the first quarter of the fiscal year ending March 31, 2021 in order to further promote the synergic effects of the Pachislot and Pachinko Machines Business in the development of gaming machines. In addition, as an evaluation index for the performance-based remuneration component of bonuses paid to the Company's officers, the method of measuring segment income has been changed from "operating income" to "ordinary income" from the first quarter of the fiscal year ending March 31, 2021 from the perspective of a management approach that the company positions "ordinary income", which is the income obtained by the Group on a recurring basis from the overall business, including equity in earnings and losses of affiliates etc., as an important target figure.

Segment information for the prior period has been prepared based on the new classification method.
